Inorganic and Analytical Chemistry (higher education planning materials like oil and natural gas)

By YI HONG CHAO

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 387 Publisher: oil industry Pub. Date :2007-08-01 1st edition 1st printing 2007-08-01 This textbook introduces the first distributed system from the macro (dilute solution, gel) and the fundamental nature of the basic principles of chemical reactions (energy changes in reaction rate, the reaction direction, the equilibrium move), and then introduced from the microscopic structure of matter (atoms, molecules, crystals) the basics. Then outlined the basics of quantitative chemical analysis, discusses the various types of chemical equilibrium in solution and titration analysis in the application, and the most commonly used instrument analysis made profile. Finally an important and complex element of the separation and enrichment material. Contents: Introduction Chapter I Section I of gas and solution gas dispersion system II III IV non-electrolyte solution, the concentration of dilute solution of colloidal solution according to the number of V VI VII polymer solution and emulsion section of the electrolyte solution thinking questions the basis of chemical thermodynamics chapter exercises and basic knowledge of chemical equilibrium thermodynamics Section II thermo-chemical reaction in the direction III IV chemical equilibrium problems thinking...

Reviews

Completely among the finest publication I have possibly read. It really is basic but excitement in the fifty percent from the pdf. Your lifestyle span is going to be convert when you total looking at this publication.

-- **Dr. Curt Harber**

Extremely helpful to all of category of men and women. it had been writtern extremely completely and helpful. You are going to like the way the blogger compose this publication.
