D Aleman Publishing, United States, 2013. Paperback. Book Condition: New. 224 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****. Who or what were Adam, Noah, and Elijah? Where they real or imaginary? What exactly was Creation? Did something really happen sometime around 4,000 BC as the Bible tells us? What exactly was leprosy? Why is the Islamic world in turmoil after centuries of quiescence? Are the mass uprisings democratic movements against tyrannical regimes, or fanatical drives to promote the spread of Islam, or is there something else far more sinister at play? Adam to Apophis provides answers to all of these questions. For millennia major religions have held the unflinching belief that at some future point the world will once more enter an end time phase. According to Islamic, Hindu, Buddhist, Jewish, and Mayan reckoning that end time phase is this current century. Christianity also holds the same belief. During such phases the earth has been subjected to airbursts and meteoric impacts which in turn have spawned decades long sequences of major environmental traumas in the form of extreme weather, volcanic eruptions, massive earthquakes, and tsunamis. This future phase is itself part of a larger cycle to which the Earth has been subjected a number of times during the past 6,000 years, resulting each time in worldwide societal collapse. Religious or mythological texts exist which feature fantastic creatures and long lived superhuman beings. The records have been fastidiously preserved for millennia. Jewish and Chinese texts have preserved associated chronologies. However these ancient chronologies have been repeatedly discounted or ignored by modern scholarship. In the past few decades science has built up its own independent chronology of the earth's recent past by means of dendrochronology, ice cores, ice rafting, sedimentology, volcanology and astronomical retro calculations....
