Experimental Course of Modern Physics (New Century institutions of higher learning physics textbook)

By ZHANG WEI FENG

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 350 Publisher: Henan University of Pub. Date :2009-12-01 version 1. This book is based colleges and universities. Modern Physics Experiment written course syllabus. including: atomic physics. nuclear physics. modern optics and spectroscopy. optical (acoustic) effects of technology and application of electrical. magnetic resonance technology. weak signal detection technology. vacuum technology and application of cryogenic technology and application of microwave technology and applications. and integrated advanced physics experiments. The book is divided into 10 chapters. 44 pilot projects. in addition to classical physics experiments. but also selectively describes the newly developed part of the current research. the formation of a new experimental curriculum. This book focuses on the physical ideas and experimental methods. focusing on students of skills and scientific literacy test. described in the arrangement of contents and form of enhanced creative thinking of students and overall ability to mobilize the initiative and creativity of student learning. improve student comprehensive experimental ability and innovation. This book can be used as an ordinary university physics or related science and engineering professionals. Modern Physics Experiment course books. as in...

Reviews

A whole new e book with a brand new perspective. Indeed, it is enjoy, continue to an interesting and amazing literature. Once you begin to read the book, it is extremely difficult to leave it before concluding.

These types of book is the perfect pdf available. I actually have study and that i am sure that i will planning to read through again again in the foreseeable future. Its been designed in an exceedingly basic way which is simply soon after i finished reading through this publication in which basically changed me, modify the way i believe.
