Brand New Book ***** Print on Demand *****.With all of the attention placed on murderers of the male persuasion, you may be under the mistaken impression that the fairer sex has little if any blood on their hands. Sure, women have killed people over the years, but aside from a poisoning here and there, they couldn't have been that bad, right? Wrong. True, there have been fewer female serial killers than men (that we know of), but as this book shows the women who have taken part in this sickening pastime were every bit as twisted, cruel, and terrifying as their overhyped male counterparts. From bathing in blood to baby-killing, the fifteen women profiled in this book have stories shocking enough to make even the toughest, creatine-guzzling he man faint. Dear reader, your heart may not be able to handle the shocking true facts presented in this humble volume. You have been warned.
