Createspace, United States, 2014. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.The Defense Acquisition System exists to manage the Nation s investments in technologies, programs, and product support necessary to achieve the National Security Strategy and support the United States Armed Forces. In that context, our objective is to acquire quality products that satisfy user needs with measurable improvements to mission capability at a fair and reasonable price. All chapters contain non-mandatory staff expectations for satisfying the mandatory requirements in DoD Instruction 5000.02. Each chapter is designed to improve understanding of the acquisition process and ensure adequate knowledge of the statutory and regulatory requirements associated with the process. Discussions, explanations, and related information enable the reader to be efficient, effective, innovative, and disciplined, and to responsively provide warfighting capability. Each chapter lists potential ways the program manager or assigned manager can satisfy mandatory process requirements and meet staff expectations for other activities. Chapter 8, Intelligence Analysis Support to Acquisition, provides information to enable the program manager to use intelligence information and data to ensure maximum war-fighting capability at the minimum risk to cost and schedule. Chapter 9, Test and Evaluation, supplements direction and instruction in DoDD...
